

## College of Engineering Honors Program Application

Engineering students who have achieved **junior** status and earned College and cumulative grade-point averages of **3.33 (B+ average)** are eligible to apply for admission to the College of Engineering Honors Program. Successful completion of departmental requirements, as outlined below, will lead to a Bachelor of Science in Engineering with Honors. A permanent notation of this achievement will be recorded on the University student academic record.

### Requirements:

1. Completion of all requirements for the Bachelor of Science degree with a minimum UI cumulative grade-point average of 3.33 or a B+ average.
2. Exceptional accomplishment as demonstrated by completion of an approved project under the supervision of a faculty member. (Examples include: research; directed independent study; development of a computer-assisted tutorial for a course; creation of a demonstration experiment or a new experiment for an engineering course; or other departmentally approved enrichment or extracurricular activity.)
3. Completion of a written report and an oral presentation on the finished honors project.
4. Satisfactory completion of at least one semester of the College of Engineering Honors Seminar, 57:001, 1 s.h.
5. Verification by the honors certification committee that the honors requirements have been fulfilled. The honors departmental adviser and the student's faculty mentor will comprise the certification committee. Both committee members must certify the achievement of honors status.
6. Submission of Part II of the application at least **four weeks prior to the date of graduation**. Part II of the application may be obtained at <http://www.engineering.uiowa.edu/about/honors.html>.
7. At least 30 semester hours of college credit have been earned toward the engineering degree at The University of Iowa. Hours earned from enrollment in independent study for the honors project cannot count toward the 128 semester hours required for a B.S.E. degree.
