## Alcoa

4879 State Street // Bettendorf, IA 52722

<http://www.alcoa.com>

For more than half a century, Alcoa's Davenport Works has led the aluminum industry in implementing cutting-edge technology and providing quality products. What was once an onion field is now a focal point of the worldwide aluminum industry. Nestled on the banks of the Mississippi River, Davenport Works exceeds one mile in length, housing 128 acres of high-tech manufacturing under one roof, or about 5.5 million square feet. Our success rests on the reputation of our people. Since 1948, thousands of diverse individuals have dedicated their enormous talents, ideas, energy and spirit of teamwork to meeting our customers' needs. Alcoa's dedication, combined with the investment of more than \$500 million in technological improvements in the past decade, makes Davenport Works the aluminum industry's leader. We continue to look forward. The recent introduction of our Alcoa Production System helps us respond to our customers by producing exactly what they want, when they want it and in the quantities they want. And it keeps us flexible - helping us react even faster to our customers' needs. It's just another reason we feel we are "Supplying the World's Best" into the 21st Century.

## **Cedar Rapids/Iowa City Technology Corridor**

325 East Washington Suite 101 // Iowa City, IA 52240

<http://www.corridorcareers.com>

A regional approach to cluster development and expanded alliances to enhance cultural offerings are just two of the reasons the Cedar Rapids/Iowa City Technology Corridor is an economic development model for the state and the nation. The Corridor also benefits from high productivity and consistent job growth -- more than 30 percent since 1990! Our region continues to experience employment gains in service and advanced manufacturing industries. The area's trained and motivated workforce draws interest from firms seeking a healthy business climate, consistent long-term growth and unmatched economic potential. More than 300,000 people make up our growing skilled and talented workforce. We regularly outperform the state of Iowa and Midwest in workforce and population growth. The diversity that reflects our population and defines our communities is mirrored in our businesses, professional and social organizations. Our area is home to a wide range of national and international Fortune 500 companies; small, family-owned businesses and emerging and advancing entrepreneurs representing: According to the Forbes Milken Institute index, the Corridor ranks No. 1 "Best Places for Business and Careers." The ranking reviews job and salary growth and high-tech output.

## **KJWW Engineering Consultants**

623 26<sup>th</sup> Avenue // Rock Island, IL 61201

<http://www.kjww.com>

KJWW is a recognized leader in the field of HVAC, plumbing, fire protection, electrical, technology, and structural engineering. We work direct to owners or as a consultant to other design professionals for evaluating, planning, and designing building and campus systems. KJWW has earned regional and international industry awards for innovative systems design with proven, low-energy usage. Our expertise is in design of systems for highly-technical, engineering-intensive facilities. For over 45 years, KJWW has served the Midwest region. Our commitment to offering quality services and people has led to KJWW's steady growth. Today, KJWW is one of the largest engineering firms in the Midwest. Our five office locations (Rock Island, Illinois; Naperville, Illinois; Madison, Wisconsin; Des Moines, Iowa; and St. Louis, Missouri) provide convenient access to our clients. All of our offices are equipped with the latest advancements in computers and video-technology to allow us to communicate efficiently with clients throughout the Midwest and around the country. The strength of any design firm is dependent upon the quality and caliber of its employees. The greatest advantage KJWW offers its clients is the technical skills and continuity of our design staff. Because we offer numerous opportunities for training, a mentoring program, career advancement, and an excellent compensation and benefits package, we have one of the lowest employee turnover rates in the industry.

## **MetroGroup Corp**

1805 E Washington Street, P.O. Box 500 // Mount Pleasant, IA 52641

<http://www.metrogroupcorp.com>

MetroGroup Marketing Services strives to be the industry's #1 direct marketing solutions provider by leveraging our culture of innovation to offer our clients outstanding services, improved results that strengthen their customer relationships and processes that reduce costs. MetroGroup Marketing Services provides superior large- and small-volume direct mail production, printing, statement processing, packaging and fulfillment services. MetroGroup Marketing Services has an extensive range of equipment and services, which can be customized for any size job. Quality assurance processes are integrated into every phase of production, and we can offer turnaround times of less than 24 hours. MetroGroup Marketing Services' production facilities offer the most wide-ranging suite of capabilities in the industry. Our multiple operations occupy over 900,000 square feet of production space. Yet, because these operations are standalone, independently managed facilities, we have the ability to respond quickly often within 24 hours and flexibility to meet our clients' ever-changing needs more effectively than a smaller firm. Our facility in Mt. Pleasant, Iowa, just 50 miles south of Iowa City offers: Over 360,000 square feet, Largest flat-poly and mastermailer inserting in the country, coupled with tremendous inkjet personalization, unique assembly and mailing capabilities, packaging of product samples and promotional literature, and fully GMP-compliant by the U.S. Food and Drug Administration

## **US Army Corps of Engineers**

Clock Tower Building, P.O. Box 2004 // Rock Island, IL 61204

<http://www.mvr.usace.army.mil>

Greetings from the U.S. Army Corps of Engineers, Rock Island District! We are one of six districts that make up the Mississippi Valley Division. Our district covers more than 78,000 square miles and includes 314 miles of the Mississippi River from Guttenberg, Iowa, to Saverton, Missouri, and 268 miles of the Illinois Waterway from Lake Street in downtown Chicago to the LaGrange Lock and Dam, southwest of Beardstown, Illinois. The majority of Corps of Engineers staff are civilians. There are civilian employment opportunities with no military commitment. While some Corps districts have both military construction and civil works missions, we are primarily a civil works district administering federal water resource development programs in large portions of Iowa and Illinois and smaller portions of Wisconsin, Minnesota, and Missouri. We also maintain the capability to support the military construction program when necessary. Our missions include navigation, environmental preservation, flood control, regulatory functions, recreation, federal real estate management, mobilization for both federal disaster response and national defense, and emergency operations. We have a diverse staff that includes both advisory and administrative personnel who manage district operations, and a technical staff comprised of specialists and technicians representing a variety of scientific and professional fields. About half of our staff work at the headquarters on Arsenal Island, while the other half work at construction field offices, lock and dam sites, and flood control reservoirs. At the Rock Island District we pledge to: Provide our services to the Nation in times of emergencies. Plan, design, and construct water resource and infrastructure projects. Manage and conserve natural resources consistent with ecosystem management principles while providing quality outdoor recreation experiences. Operate and maintain lands and facilities under our jurisdiction. Implement regulatory authorities that protect our Nation's resources.

## **Vermeer**

1210 Vermeer Rd. E. // Pella, IA 50219

<http://www.vermeerjobs.com>

Vermeer's history is rich in innovation and growth. Where did we come from and where are we going? These are classic questions Vermeer leadership considers as they guide the company on a journey toward continued success. Situated approximately 45 miles southeast of Des Moines, the "Vermeer Mile" encompasses over 200 acres and 1.5 million square feet of manufacturing space. Vermeer continues to be a premier Iowa employer and we are building global markets through our Vermint facility (located in Goes, Holland) as well as expatriate opportunities. Saying our people are our greatest asset is more than a passing comment at Vermeer. Averaging 11 years of service per employee, Vermeer reinforces this fundamental belief by providing creative, competitive, and growth-oriented benefit options - including an on-site health care facility and an on-site pharmacy. At Vermeer, we know your success is essential to our success. Vermeer is proud of our employee's achievements and takes a deliberate role in supporting the career development of our people. By providing programs such as tuition assistance, on-site training via Vermeer University, and career progression planning, we offer opportunities to any employee who wishes to grow with the company. It is the policy of Vermeer Manufacturing Company to employ, advance in employment, and otherwise treat all employees and applicants for employment without discrimination because of race, color, religion, sex, age, national origin, physical or mental handicap, or veteran status. We reinforce this philosophy through our Affirmative Action Statement, which can be observed on any one of the internal Vermeer communication links up and down the Vermeer mile.

## **West Liberty Foods, LLC**

207 W 2<sup>nd</sup> St. // West Liberty, IA 52776

<http://www.wlfoods.com>

West Liberty Foods, LLC is a leading co-packer, private label manufacturer and foodservice supplier of sliced, processed meat and poultry products. The current West Liberty Foods, LLC facility operated as a Louis Rich plant until Oscar Mayer Foods acquired Louis Rich in 1979. In May of 1995, Oscar Mayer announced the sale of the West Liberty facility. In April of 1996, a newly formed cooperative, Iowa Turkey Growers Cooperative undertook to purchase the West Liberty facility and the grow-out operations in Ellsworth, Iowa. This sale was finalized in December of 1996. The Cooperative consists of 47 area turkey growers. In 2000, a second meat processing facility, Sigourney Foods, located in Sigourney, Iowa was purchased to expand Iowa Turkey Growers Cooperative capabilities. This facility has approximately 50,000 square feet and employs 60 team members. In 2003, a third facility, Mt Pleasant Foods, located in Mt. Pleasant, Iowa, began operation. This facility has 82,000 square feet. It employs 500 team members and runs approximately 2.4 million lbs/week. In 2005, Iowa Turkey Growers Cooperative was renamed West Liberty Foods, LLC and our entire facilities share this name. In 2007, a fourth facility will be completed and located in Tremonton, Utah. This facility will continue to emphasize food safety through its state-of-the-art design. This complex will consist of a 93,000 sq ft. fabrication facility and a 74,000 sq ft. slice facility. At full capacity, the plant will be able to further process more than 100 million lbs. of protein products per year; in addition, to processing 36 million lbs. of chicken. These facilities will be the first of their kind to cook and slice 120 long slicing logs in North America.
