Student Tailored EFA

Civil and Environmental Engineering

Updated May 2015

Student’s Title for EFA: ________________________________________________________________

Read the guidelines for a Custom EFA carefully. A Student Tailored EFA is offered within the Civil or Environmental Subtrack of CEE. Twenty-seven (27) semester hours (SH) must be entered on this form. Six (6) SH constitute the two required CEE design courses; the remaining 21 SH constitute the Student Tailored EFA.

For a non-technical EFA, you must attach documentation showing that the courses selected satisfy a minor. The EFA must include at least 21 SH, even if the minor requires fewer SHs. If the minor requires more than 21 SH (e.g., pre-requisites require taking additional courses), only 21 SH will be counted towards the required 131 SH for your degree in Civil and Environmental Engineering.

Student Name/Date: ____________________________________________________________ Student ID #: ____________________________________________________________

Expected Graduation Date: __________________________________________________________

Do you plan to take FE exam? __________________________

Subtrack Designation: ______ Civil ______ Environmental

* Design course options for this EFA: CEE:4157 Environmental Engineering Design; CEE:4374 Water Resources Design; CEE:3136 Design of Concrete Structures; CEE:4535 Design of Steel Structures; and CEE:4762 Transportation Design. Only one CEE Design Elective may be chosen from the Structures, Mechanics, and Materials technical area (either CEE:3136 or CEE:4535). CEE:4157 is required for the Environmental Subtrack.

CEE:3152 Environmental Chemistry is also required for the Environmental Subtrack.
