Present: Keri Hornbuckle, Jia Lu, Julie Jessop, Thanos Papanicolaou, H.S. Udaykumar, Jon Kuhl

Absent:

1) Jessop described the exciting possibilities that the new engineering addition presents to the CoE faculty and students and solicited for input in preparation for the March 26th meeting between Dean Scranton and the architects.

2) The influencing factors were discussed and the core course instructor feedback was considered.

3) Jessop presented 5 overall scenarios regarding classrooms. It was also discussed the importance for the new addition to have a 100-120 capacity classroom. Jill McNamara provided enrollment data and a histogram with university data of classroom sizes.

4) Scenario B was considered to be the most suited in response to core courses needs (100, 40, 40, 80).

5) “Enabling active learning pedagogy” was an aspect that was brought up by many participants, including EFC members Udaykumar and Kuhl.

Respectfully submitted,
Thanos N. Papanicolaou
