Present: Profs. Andersen, Arora, Dasgupta (chair), Dove, Rethwisch; Dean Hornbuckle
Visitor: Prof. Allen Bradley, Mr. Doug Eltoft

1. Prof. Dasgupta called the meeting to order at 2:15 pm.

2. Mr. Eltoft provided a demonstration of the new ACE system for assessing the classroom environment. The EFC informally recommended to Dean Hornbuckle that the new system be used to collect ACE data for the upcoming mid-semester course evaluation process – subject to the constraint that all questions remain the same.

4. Prof. Bradley brought the EFC up to date on the activities of the Curriculum Committee. The Committee’s efforts regarding a new GEC policy for the CoE were particularly of interest.

5. A brief discussion on the engineering math sequence was held. No action was taken.

6. The meeting was adjourned at 3:25 pm.
