

Minutes(They weren't very long so they are just going to be in the email):

Attendance: 14 people

4505 and G430 at 6:30 pm

Wednesday, October 7th

- next meeting 6:30 in an undetermined room (see future emails) to listen to a short presentation from Amanda to learn the process of making a concrete canoe
- after this presentation we'll be heading back down to the concrete lab to crush some concrete and mix another mix design!
- Bryson talked about fiberglass mold idea and will keep researching it
- looks like it will be around 300-500 dollars to do the mold this way...might be a good investment!
- also mixed our first 2 concrete mix designs. They are currently curing in the lab downstairs. New mix design next week.
- and nick just found a bone crusher so now we will be trying some bone as a recycled aggregate!!

talked about fund raising ideas:

- chili/soup selling week before finals
- Tailgating (friend Nick Turner or Eryn Dattilo on facebook to get invited to these events!!!!!!)
- foundation account is being set-up

remember: WISE-ASCE flag football game THIS FRIDAY!

4pm Hubbard park. It's part of the homecoming celebration and it's going to be fun!
