

CANOEING THIS SUNDAY 2PM JOHN DEERE PLAZA

Minutes:

October 21, 2009

Attendance: 11

Prof. Lee had a meeting to check out the fiberglass mold situation with Brian Johnes who said he could help if his adviser and solar bike adviser Creig Just says it's ok.

Looks like it will cost a few hundred plus a lot of man-hours, but result is worth it.

Talked about aggregates we might be using for the mix and Nick and Eryn's meeting with city carton.

Prof. Lee Suggested still checking out rubber powder and latex polymer liquid

<http://www.jetomes.com/LatexPolymerLiquid.html>

<http://www.rbrubber.com/> then click on 'raw rubber materials' and then click on 'crumb rubber'

for canoeing this Sunday meet at the John Deere plaza at 2 unless it's easier for you to meet us as lake McBride. Let me know if you are going to meet us at lake McBride please!!!!

Here's a map:
