

Report of Quiz 14

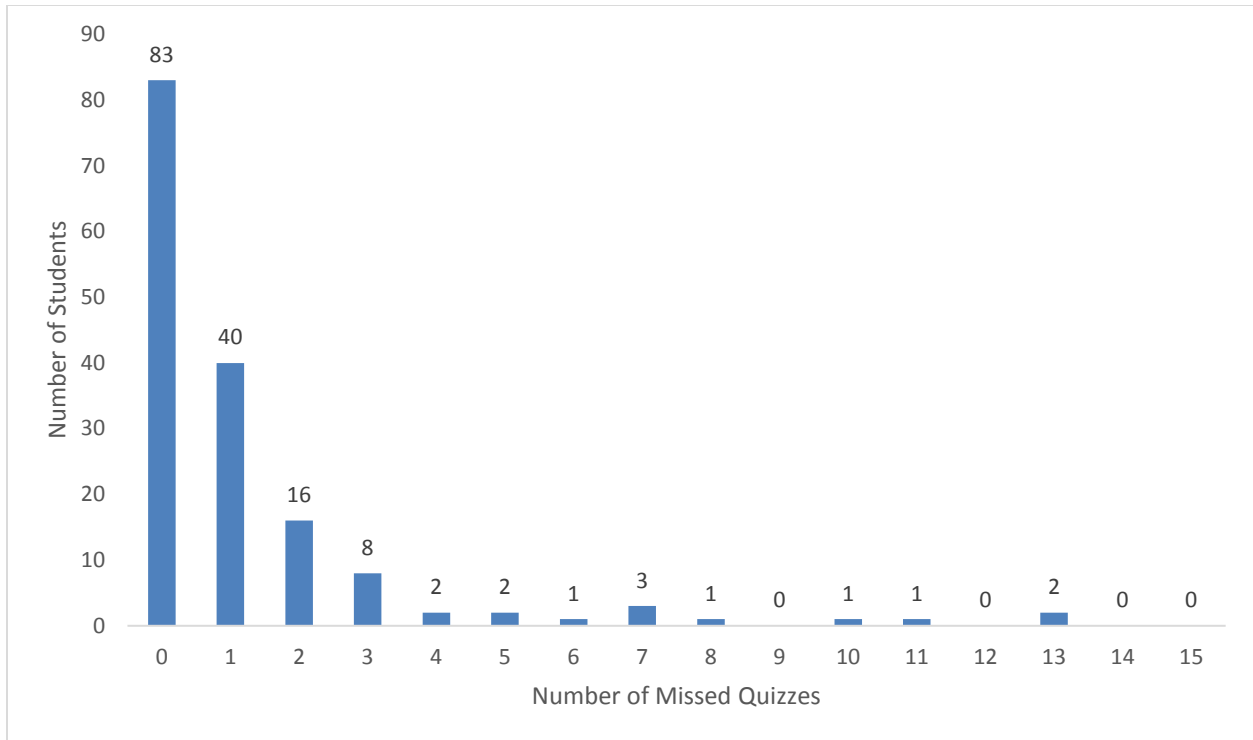

12/9/2016

1. Summary

	Number of Students
Total	160
Attended	159
Missed	1
Makeup	0

2. Common Mistakes

- Not realizing flow was on both sides of the plate and not accounting for it in the drag force solution
- Using the wrong length scale for calculating Reynolds number calculation
- Using the laminar formulas for calculating C_f and BL thickness
- Not writing in appropriate units for the final answers
