Engineering Professional Development Top 10 Tips:
How to be successful at the Engineering Career Fair

BEFORE the fair...

1. **Research** what companies will be attending the Engineering Career Fair and what they do; use the **Employer Directory** as a starting point: bit.ly/EPD020513. Take notes and make a list of companies you plan to visit at the fair.

2. **Update your resume** & have it reviewed by Engineering Professional Development staff. Include previous internships, relevant course projects, & leadership experience. See the Career Resource Manual for resume examples: bit.ly/epdmanual. Print off copies of your resume to hand out at the fair.

3. **Apply for on-campus interviews and positions** at www.HireaHawk.com. Companies will start scheduling interviews before the career fair & applying on HireaHawk gives you an early & competitive advantage with employers.

DURING the fair...

4. **Make a great first impression by dressing professionally.** Professional dress can include a business suit, dress pants or knee-length skirt with a blouse or button-down shirt, or a sport coat or sweater with a tie. Remember to shine your shoes!

5. **When speaking with an employer, start off with a firm handshake and introduce yourself.** In one minute or less, you need to tell the employer about yourself, demonstrate your knowledge of the company, express enthusiasm and interest, and relate your background to the company’s need. Then ask the representative appropriate questions regarding the company or possible employment opportunities.

6. **Bring copies of your resume, a few pens or pencils, a folder or portfolio, and a pad of paper.** Keep track of the recruiters you speak with and take notes on your overall impression of the company.

7. **Be an active participant and not just a browser.** The fair provides an outstanding opportunity to build your network and market your interests and skills to employers...so take advantage of all it has to offer!

AFTER the fair...

8. **Send thank you notes** or emails to the representatives you spoke with. This conveys professionalism and continued interest in the company/position.

9. **Stay in touch with your new contacts.** You have expanded your professional network and you should work on maintaining and growing these relationships. Check in with your contacts every few months and connect to them on www.LinkedIn.com.

10. **Apply for positions** with companies you are interested in. Review your notes from the fair to know where and how to apply. Most position postings will be at www.HireaHawk.com and/or the company human resources/careers website.

Technically Brilliant. Endlessly Innovative. That's You. That's us. You've never experienced a company like 3M. For more than 300 years 3M employees have worked to make people's lives easier and better. Our 89,000 global employees use their ingenuity to invent, manufacture, and sell our products in more than 200 countries. These products spring from more than 45 technology platforms that have made us a global leader in major markets and that help us meet real customer needs. In a global, multi-faceted company like 3M, you can explore diverse career opportunities and develop new skills all within one company.

**Majors:** Biomedical Engineering; Chemical Engineering; Civil & Environmental Engineering; Electrical & Computer Engineering; Industrial Engineering; Mechanical Engineering  
**Position Type:** Full-Time; Internships

---

Aerotek  
Hiawatha, IA

What kind of engineering jobs are you looking for? As one of the largest U.S. providers of engineering and technical staffing, we can help you find engineering jobs that match your skills. Our professional recruiters work with top companies, giving you access to some of the most desirable positions available.

**Majors:** Chemical Engineering; Civil & Environmental Engineering; Electrical & Computer Engineering; Industrial Engineering; Mechanical Engineering; Computer Science  
**Position Type:** Full-Time

---

Alliant Energy  
Cedar Rapids, IA

Alliant Energy Corporation is an energy holding company. Providing Midwest utility customers with safe and reliable electric and natural gas services is our top priority. Our corporate headquarters are located in Madison, Wisconsin. General offices are located in Cedar Rapids and Dubuque, Iowa; utility operation facilities are located in communities throughout our utility service territory in Iowa, Minnesota and Wisconsin.

**Majors:** Chemical Engineering; Civil & Environmental Engineering; Electrical & Computer Engineering; Mechanical Engineering  
**Position Type:** Full-Time; Internships

---

Andersen Corporation  
Oak Park Heights, MN

Andersen Windows, Inc. is a part of Andersen Corporation; the largest window and door manufacturer in North America. The flagship Andersen brand is the most recognized and most used brand in the window and patio door industry. In addition to the Andersen brand, Andersen Corporation includes Renewal by Andersen window replacement, Silver Line, and American Craftsman brand windows and doors sold exclusively at The Home Depot. Andersen was founded in 1903 and is privately owned.

**Majors:** Chemical Engineering; Industrial Engineering; Mechanical Engineering  
**Position Type:** Full-Time; Internships; Co-ops
Archer Daniels Midland (ADM)
Decatur, IL

For more than a century, the people of Archer Daniels Midland Company (NYSE: ADM) have transformed crops into products that serve vital needs. Today, 31,000 ADM employees around the globe convert oilseeds, corn, wheat and cocoa into products for food, animal feed, industrial and energy uses. With more than 270 processing plants, 470 crop procurement facilities, and the world’s premier crop transportation network, ADM helps connect the harvest to the home in more than 140 countries.

**Majors:** Chemical Engineering; Electrical & Computer Engineering; Mechanical Engineering

**Position Type:** Full-Time; Internships

Athena GTX
Des Moines, IA

Athena GTX designs and manufactures wireless, mobile, patient-worn, multiple casualty vital signs monitors to assist in point of injury triage and treatment decisions serving military, civilian and telehealth markets internationally. Our device software and wireless hardware allow first responders and medical personnel to connect with patient data remotely thus extending monitoring capabilities further into the field to point of injury and adding new derived vital signs parameters.

D

Design Engineers
Cedar Rapids, IA

We provide Mechanical and Electrical Engineering design for the most challenging building projects. We are proactive, collaborative, and tenacious problem solvers, energized by complex engineering challenges. If you picked up a building and shook everything out of it, what remains is what we design. Between the walls, above the ceilings, connected to the maze of piping, ductwork, power, and communications systems that make a building function, that’s what we obsess about.

**Majors:** Electrical & Computer Engineering; Mechanical Engineering
**Position Type:** Full-Time

DuPont
Cedar Rapids, IA

For more than 200 years, DuPont has brought world-class science and engineering to the global marketplace through innovative products, materials and services. Our market-driven innovation introduces thousands of new products and patent applications every year, serving markets as diverse as agriculture, nutrition, electronics and communications, safety and protection, home and construction, transportation and apparel.

**Majors:** Chemical Engineering; Industrial Engineering
**Position Type:** Full-Time; Internships; Co-ops

E

Eaton Corporation
Cleveland, OH

Eaton is a power management company with 2013 sales of $22.0 billion. Eaton provides energy-efficient solutions that help our customers effectively manage electrical, hydraulic and mechanical power more efficiently, safely and sustainably.
