College of Engineering Alumni/University of Iowa Alumni Association: www.engineering.uiowa.edu/alumni-friends
Through both innovative and traditional events, services, and communications, the UIAA is the trusted resource for all loyal Hawkeyes who want to remain actively engaged in the University of Iowa community. Whether you’re a UI student, a graduate, a former student, a parent of a student, or a fan of the Hawkeyes, we welcome you to join our 50,000-strong community. After all, once a Hawkeye....

Engineering Student Council: www.engineering.uiowa.edu/ess/current-students/student-organizations/engineering-student-council-esc
Comprehensive organization affiliated with the College of Engineering that acts as the liaison between the undergraduate student body and the Dean's Office. The Organization also acts as a voice of the student body with regards to facility/ college life improvements.

Institute of Industrial Engineers (IIE): www.engineering.uiowa.edu/~iie/
The Institute of Industrial Engineers Iowa Chapter is a student run organization which currently has grown the past couple of years into an organization of about 30 members. Our goal is to recruit members to actively participate in organizing events including professional development, social, sporting events against other engineering organizations, community outreach, fundraising events and this year starting to add to our alumni events.

Society of Women Engineers (SWE): www.engineering.uiowa.edu/~swe/
Society of Women Engineers is a student organization that focus' on the development of students through professional development, volunteering, K-12 outreach, fundraising, and other events throughout the academic year.

Study Abroad: International Programs: international.uiowa.edu/study-abroad
Learn about the numerous & exciting opportunities available for engineers to study abroad!

Women in Science & Engineering (WISE): www.uiowa.edu/~wise
Women in Science and Engineering (WISE) provides academic and social support to undergraduate women in science, technology, engineering, and math (STEM) majors through three main programs: the Peer Mentoring Program, the Living-Learning Community, and the WISE Ambassadors.
Engineering Professional Development Top 10 Tips:
How to be successful at the Engineering Career Fair

BEFORE the fair...
1. **Research** what companies will be attending the Engineering Career Fair and what they do; use the **Employer Directory** as a starting point: bit.ly/EPD020513. Take notes and make a list of companies you plan to visit at the fair.
2. **Update your resume** & have it reviewed by Engineering Professional Development staff. Include previous internships, relevant course projects, & leadership experience. See the Career Resource Manual for resume examples: bit.ly/epdmanual. Print off copies of your resume to hand out at the fair.
3. **Apply for on-campus interviews and positions** at www.HireaHawk.com. Companies will start scheduling interviews **before** the career fair & applying on HireaHawk gives you an early & competitive advantage with employers.

DURING the fair...
4. **Make a great first impression by dressing professionally**. Professional dress can include a business suit, dress pants or knee-length skirt with a blouse or button-down shirt, or a sport coat or sweater with a tie. Remember to shine your shoes!
5. **When speaking with an employer, start off with a firm handshake and introduce yourself**. In one minute or less, you need to tell the employer about yourself, demonstrate your knowledge of the company, express enthusiasm and interest, and relate your background to the company’s need. Then ask the representative appropriate questions regarding the company or possible employment opportunities.
6. **Bring copies of your resume, a few pens or pencils, a folder or portfolio, and a pad of paper**. Keep track of the recruiters you speak with and take notes on your overall impression of the company.
7. **Be an active participant and not just a browser**. The fair provides an outstanding opportunity to build your network and market your interests and skills to employers...so take advantage of all it has to offer!

AFTER the fair...
8. **Send thank you notes** or emails to the representatives you spoke with. This conveys professionalism and continued interest in the company/position.
9. **Stay in touch with your new contacts**. You have expanded your professional network and you should work on maintaining and growing these relationships. Check in with your contacts every few months and connect to them on www.LinkedIn.com.
10. **Apply for positions** with companies you are interested in. Review your notes from the fair to know where and how to apply. Most position postings will be at www.HireaHawk.com and/or the company human resources/careers website.

**Position Type:** Full-time

---

Air Force - ROTC
Iowa City, IA
www.uiowa.edu/~afrotc/

Air Force ROTC is a college program offered at campuses across the country that prepares young men and women to become leaders in the Air Force. But it's also so much more. You will grow as an individual both mentally and physically while developing lifelong friendships. It's an opportunity to acquire strong leadership skills that will benefit you as an Air Force officer and in corporate America. And it's an opportunity to pay for school through scholarships. Plus unlike many college students, you'll have a position waiting for you after graduation at one of the top high-tech organizations in the world - the U.S. Air Force.

**Majors:** Biomedical Engineering; Chemical Engineering; Civil & Environmental Engineering; Computer Science; Electrical & Computer Engineering; Industrial Engineering; Mechanical Engineering

**Position Type:** Full-time

---

Athena GTX
Des Moines, IA
www.athenagtx.com

Athena GTX produces wireless, mobile, patient-worn, multiple casualty monitors to assist in point of injury triage and treatment decisions. We serve high-tech biomedical, military/civilian markets related to medical state and smart monitors for first responders. Our devices allow personnel to connect with patient data remotely extending monitoring capabilities further into the field and adding new derived vital signs parameters including "smart" indices to new and existing product lines.

**Majors:** Biomedical Engineering; Computer Science; Electrical & Computer Engineering

**Position Type:** Full-time; Co-ops; Internships
Bio::Neos
Coralville, IA
www.bioneos.com

Bio::Neos, Inc. is a life sciences software company providing customized software solutions and bioinformatics data analysis to researchers. Based at the Oakdale Research Park in Coralville, Bio::Neos works with local and remote clients to provide their services across the nation. Bio::Neos specializes in data management, web applications, custom databases, mobile apps, custom software solutions, and high throughput bioinformatics data analysis.

LMS North America
Coralville, IA
www.lmsintl.com

LMS is a business segment of Siemens PLM with development and sales offices located around the world. The product developed and supported by LMS in Coralville is called Virtual.Lab Motion. It is used to solve Newton’s equations of motion (dynamics) and predict the position, velocity, acceleration, and reaction forces of an assembly of mechanical parts. Our customers are primarily Fortune 500 companies (Daimler, GM, Ford, Boeing, Deere, etc.).

This is a great opportunity to get exposure to the most successful engineering companies in the world, and learn practical aspects of engineering from a leading technology company. The software uses CATIA geometry to represent the parts in assembly. This implies you will gain experience with using the most widely used commercial CAD software and also learn about advanced engineering design and analysis.
