Hello,

We at Engineering Tutoring hope you are staying safe during this time and can’t wait for our return to campus! At this point in the transition to virtual instruction you may have already taken an exam or are preparing for an upcoming one. While we are unable to offer our review sessions, you can still join us at evening tutoring to ask questions or receive assistance for your courses. We are available via Zoom Sunday through Thursday 6-9pm.

**Circuits & Statics TA Positions**
We have extended the deadline for the Circuits and Statics TA positions to accommodate for the changes this semester. The application deadline is now Sunday, April 26 with interviews to be held via Zoom Sunday May 3 – Friday, May 8. If you are currently enrolled in Circuits and Statics you are still eligible to apply. Visit the [College of Engineering Student Employment page](https://engineering.uiowa.edu/student-employment) to learn more about the position and to access the application.

**How to Sign-Up for Engineering Tutoring April 19-23**
- Complete the [Engineering Tutoring Survey](https://engineering.uiowa.edu/student-employment) by 4:30pm CDT on the days you would like to access tutoring – the survey link is also available on our website
- You can also sign-up for multiple days at a time, but be sure to only select days you plan to attend to avoid any excess emails. The survey is updated each Friday to include the dates for the next week.
- By 5:50pm CDT you will receive an Outlook calendar invitation to your UI email address with information on how to access virtual tutoring. If you sign-up for more than one subject, you may receive more than one calendar invitation.
- Check out the [Engineering Tutoring website](https://engineering.uiowa.edu/student-employment) for more information on virtual tutoring
- During tutoring if you have any questions, email engineering-tutoring@uiowa.edu and we will get back to you as quickly as possible.

**Tips for Virtual Learning Academic Success**
- Be sure to include a time in your routine where you review your emails and ICON announcements. It’s easy to miss something but setting aside a time to read through these can help!
- Use your resources – tutoring, other academic support centers, as well as instructor and TA office hours are all important to use at this time.
- If you have a question, be sure to ask. Whether it is a question for your instructor, academic advisor, or general question for someone on the [Engineering Student Success Team](https://engineering.uiowa.edu/student-employment) we are all here to support you – so do not hesitate to let us know what you need.

Continuing to wish you good health and good luck on any future exams!

Adrienne
