Hello,

We at Engineering Tutoring hope you are looking forward to a safe Labor Day weekend where you can rest and recharge after the first two weeks of the semester. As a reminder, Engineering Tutoring will be closed for Labor Day and we will not offer tutoring this Sunday, September 6 or Monday, September 7. After addressing the initial technology challenges we faced in week one, we will again offer engineering tutoring using multiple different virtual tutoring spaces.

Starting Tuesday, September 8, Engineering Tutoring will again provide FREE virtual tutoring via Zoom Sunday-Thursday 6:00-8:00pm to students enrolled in the following courses: Principles of Chemistry I/II, Introductory Physics I/II, Engineer Math I-V, Statics, Circuits, Thermodynamics, Fluid Mechanics, Dynamics, Materials Science, and Mechanics of Deformable Bodies. We will also be providing reviews for some of our courses – more information can be found on our website.

**Engineering Tutoring Sign-In Procedure**
To access tutoring, simply click on the link associated with the subject you are looking to get some assistance with and sign-in with your HawkID/password. After you sign-in and select the course you are there for, your sign-in page will now include a green button that will open Zoom for you. When you join the session, you will first be placed into a waiting room – this is a great time to make sure you have the materials you need for tutoring readily accessible. You will be admitted to the room and are welcome to stay until 8:00pm when tutoring ends. If you have concerns regarding accessibility of virtual tutoring, please contact Adrienne Maxwell, Director of Instructional Support at engineering-tutoring@uiowa.edu.

**Engineering Tutoring Sign-In Links**
- Engineering Tutoring: Math for support in Engineer Math I-V
- Engineering Tutoring: Chemistry & Physics for support in Principles of Chemistry I/II and Introductory Physics I/II
- Engineering Tutoring: ENGR Courses for support in Thermodynamics, Fluid Mechanics, Dynamics, Materials Science, and Mechanics of Deformable Bodies
- CircuiTAtors Office Hours & Tutoring for support in Circuits
- sTAtics Jedi Office Hours/Tutoring/Study Tables for support in Statics

Don’t forget to check out Tutor Iowa for more information about additional academic support resources and private tutoring. Additional resources provided by Engineering Tutoring will be promoted via email and on our website, but should you have any questions do not hesitate to reach out to us. We hope to see you utilize engineering tutoring this semester!

Best,
Adrienne
